

# PROTÉGÉ TU CORAZON

Protégé Tu Corazon is a series of workshops that focus on the social and emotional development of our students. Themes vary during each workshop and tend to be very interactive and engaging for the students through the use of videos, slides, activities, role playing, small group discussions, and conversations. Topics may include keys to managing your emotions, self-esteem, values and morals, love, respect and fidelity, as well as sex education, peer pressure, and communication between parents and students. Protégé Tu Corazon has been utilized in a variety of countries including Spain, Argentina, Italy, Mexico and the United States and has further been adapted to fit the interests of Bolivian students and families.

Santa Cruz Cooperative School has worked with Protégé Tu Corazon since the 2006-7 school year and has further adapted the curriculum to fit the needs of our students. Five workshops are given throughout the year for students in grades 6th, 7th, 8th, and 9th and a sixth and final workshop is given at the end of the year that includes both parents and students. Students and parents are given the opportunity to provide feedback and the results have been overwhelmingly positive.

Below we have provided you the schedule for the current school year as a means of talking with your son or daughter about topics they have been discussing, and to know when the parent/student meeting will be held. If you have further questions or concerns please be sure to contact Mr. Vande Loo.
